

# Reference Manager Overview

Martin Fenner, Gobbledygook

March 15, 2009

18 April 2009: I've updated the chart and added 2collab, the "Read" category, sharing of PDF files and the Mendeley bookmarklet and fulltext search.

15 July 2009: I've updated the chart to indicate that Mendeley and labmeeting have integrated PDF viewers, and that 2collab can search Scopus.

20 July 2009: I've added the offline version of RefWorks for Windows, EndNote OpenOffice plugin and fulltext search in several tools.

22 February 2010: Many small changes, including a few more categories. Added Citavi and dropped 2collab, LabMeeting and Connotea.

6 August 2010: Added Mendeley API and iPhone app, EndNote X4 features.

19 September 2010: Moved chart to different location, PDF download, Creative Commons license.
